

# The Great Divide

Willie Nelson

Here we are  
Standing where the highways cross  
Here we are  
Sayin' goodbye Just another love  
Lost in the great divide Here we are  
Acting like two crazy kids  
We've come too far  
To ever see it end like this Just another love  
Lost in the great divide Remember how we used to dance together?  
Remember how I used to hold you tight?  
You asked me if I'd leave and I said never  
And that's still right Summer sun  
No prettier than summer rain  
Summer gone  
Summer coming back again Other loves  
Lost in the great divide Remember how we used to dance together?  
Remember how I used to hold you tight?  
You asked me if I'd leave and I said never  
And that's still right Summer sun  
No prettier than summer rain  
Summer gone  
Summer coming back again Other loves  
Lost in the great divide Other loves  
Lost in the great divide
