Shine On

NEEDTOBREATHE

Somewhere between the end
And the point where we begin
There's a fire burning brightly
That's found it's way to dim
When the feeling's gone
Shine on, shine on
And on to something new
It's long and overdue
I will remember you
Shine on, shine on
And let the others see
You've got your victory
Will you remember me
I was with you in the valley
And up upon that hill
So take just one more step infromt of you
Fir I am with yo ustill
And you're not alone
Shine on, shine on
and on to something new
It's long and overdue
I will remember you
Shine on, shine on
And let the others see
You've got your victory
Will you remember me
Can you see my hands are open
I am waiting just ahead
And you think you need it all now
But you needed me instead
Shine on, shine on
Shine, oh shine on
Won't you, won't you shine
Shine on, shine on
and on to something new
It's long and overdue
I will remember you
Shine on, shine on
And let the others see

You've got your victory
Will you remember me
Somewhere between the end
And the point where we began...
