Something You Got

Rita Hosking

I wanna write you a pretty love song, like Van Morrison or Johnny and June,
Smooth and easy baby, like a day's dawn after another night of laying with you.

I wanna find you forty acres, class one soil and a swimming hole,
Fry your bacon baby, grow your apples, hold your hand darling when we grow old.

Something, it's the power of something, it's a powerful something you got.

You'll be soothed by my country cooking, play me a banjo tune on the back porch,
Make me love notes baby, when I'm not lookin, I'll build a fire for you, when the rain pours

Something, it's the power of something, it's a powerful something you got.

My cabin or New York babe, it's just another way to roll, time to roll.

I wanna write you a pretty love song, like Van Morrison or Johnny and June,
Smooth and easy baby, like a day's dawn after another night of laying with you.
