

The Thief

The Dear Hunter

Shrouded. Criminal.

An innovative mindShadowed, they're oblivious, with plans awry. Who can save us now? Love seems baron
when cash is king.

Wealth here for the bleeding, what good will bring?

More than I could ask from those who sleep.

A crooked mind, an honest heart ancillary.

They collide.

Cheating innocence.

I've got the time tonight. Tonight.

Tonight.

Tonight.

Tonight.

Tonight.

Tonight. I got time, got time.

I got time, got time.

I got time, got time.

I got time, got time.

I got time, got time.

I got time, got time.

I got time, got time.

Love seems baron when cash is king.

Wealth here for the bleeding, what good will bring?

More than I could ask from those who sleep.

A crooked mind, an honest heart ancillary.

They collide.
