Feel Good

Eric Benet

You just make me feel so good
(Feels good)
Oh, oh, ohNow, now, now, now, girl, I'd like to know
Exactly what the deal is
I don't like to lose control, no
But this is crazy what I'm feelin'I know 'cause I keep tryna hide
How it feels when you're around me
I see your smile and I get high
I try to fight it but
I can't see no reason why'Cause you just make me feel good
I feel good
You give me little butterflies
(Oh, oh, oh)You just make me feel good
I feel good
Not like them other boys
'Cause you don't even tryI used to love my single life
You see it fits my disposition
But compared to what you put inside me
I'm second guessin' what I'm missin'Now, baby, we can call it love
But let's not break it with a label, no
Let's take it how it comes
I'll show you all my cards
And keep them face up on the table(You just make me feel good)
I feel good
I tremble when I'm by your side
(Oh, oh, oh)You just make me feel good
I feel good
You're kind of crazy but
I can't get you off my mindNow we've got time, let's take it slow
And where it leads I don't know
Let's have some fun, keep it on the low
You know you got my time, that's for sureThis thing is so strong, girl, you're blowin' my mind
You got that swagger, boy, I love your vibe
Feels so good, gotta play with your mind
(Feels good, feels good)You just make me feel good
I feel good
You give me little butterflies
(Oh, oh, oh)You just make me feel good
I feel good

Not like them other boys
'Cause you don't even tryYou just make me feel good
I feel good
I tremble when I'm by your side
(Oh, oh, oh)You just make me feel good
I feel good
You're kind of crazy but
Can't get you off my mindFeels good, feels good, you feel so good, baby
Feels good, feels good, you feel so good, baby
Feels good, feels good, you feel so good, baby
