

I Think It's Love

Steps

Hurry up love don't keep me waiting
Just say the words I'm longing for
Right here and now this moments for the taking You are the one that I adore
Here in your arms I'm drifting far away
So tell me know don't you hesitate Is this love that we're feeling
Or are we dreaming?
Do you feel the magic too? Make a dream come true
And if you feel the wonder that I do inside
Then I think it's love we're feeling tonight In your eyes I see only heaven
(Heaven, my love)
With you my love I'll always stay
You're in my heart from now and forever
(Forever, my love) I need to know that you feel the same
With you I think I know what love can mean
(Hold me now)
So hold me now until eternity Is this love that we're feeling
Or are we dreaming?
Do you feel the magic too? Make a dream come true
And if you feel the wonder that I do inside
Then I think it's love we're feeling tonight And in your arms it feels like paradise
I see my dreams reflected in your eyes
Don't you tell me that I'm dreamin' 'cos I won't believe it
This is love we're feeling tonight, oh tonight Is this love that we're feeling
Or are we dreaming?
Do you feel the magic too?
Make a dream come true And if you sense the wonder that I do inside
Then I think it's love we're feeling
I think it's love we're feeling
I think it's love we're feeling tonight
