

Saved

Wolfgang Gartner

Alright, it's alright
We're here at the edge of the Earth
With the sunlight soul All night, all night
I wish I could stay
In this wonderful life with you Alright, it's alright
We're here at the edge of the Earth
With the sunlight soul All night, all night
I wish I could stay
In this wonderful life with you Alright, it's alright
All night, all night Alright, it's alright
We're here at the edge of the Earth
With the sunlight soul All night, all night
I wish I could stay
In this wonderful life with you Alright, it's alright
We're here at the edge of the Earth
With the sunlight soul All night, all night
I wish I could stay
In this wonderful life with you
