Lend Myself To The Night

Devildriver

Listen upThese spirits, exact a heavy toll
I've had it
Thrown caution out of the window
Let evil in at timesPaid an exact price for all my crimes
Bathed in blood but came out
Clean as a holy shrineLend myself to the night
Thrown myself to the wind, fuck it
It's worth the risk, it's worth the risk
It's worth believing inBells are ringing in the eyes of fire
I've had it
Watch what you seek, it really exists
Let evil in at timesPaid an exact price for all my crimes
Bathed in blood but came out
Clean as a holy shrineLend myself to the night, to the night
Thrown myself to the wind, just fuck it
It's worth the risk, it's worth the risk
It's worth believing inLend myself to the night, watch it all fall
Thrown myself to the wind as it goes down
It's worth the risk, it's worth the risk, fuck it
It's worth believing in, it's worth believing inTrue, I've been there and back again
Found myself face down on the tracks
Face down, face down, face downLend myself to the night, to the night
Thrown myself to the wind, just fuck it
It's worth the risk, it's worth the risk
It's worth believing inLend myself to the night, to the night
Thrown myself to the wind as it goes down
It's worth the risk, it's worth the risk, fuck it
It's worth believing in, it's worth believing in
