

# Machines of Hate (Self Bias Resistor)

## Fear Factory

Machines of hateHey you, wake up  
Open your swollen eyes  
Erosion invades your mind  
A cancer that grows over timeHey you, rise up  
Rise to fight, eliminate  
Burn your fuse to detonate  
The human machines of hateAll these years they've tried to break you to your knees  
Anger scours right through your veins  
Now it's time to put an end to all the lies  
Now it's time to take control of your life  
Now it's time to put an end to all the lies  
Now it's time to take control of your lifePersist for resistance, resist their insolence  
You are a dissident, burn away conformity  
Hypocrisy you can't believe  
Machines of hate, a disease that infiltrates  
Persist for resistance, resist their insolence  
You are a dissident, burn away conformityAll these years they've tried to break you to your knees  
Anger scours right through your veins  
Now it's time to put an end to all the lies  
Now it's time to take control of your lifePersist for resistance, resist their insolence  
You are a dissident, burn away conformity  
Persist for resistance, resist their insolence  
You are a dissident, burn away conformityAll these years they've tried to break you to your knees  
Anger scours right through your veins  
Now it's time to put an end to all the lies  
Now it's time to take control of your lifeThey have tried to break you  
They have tried to break you  
They have tried to break you  
They have tried to break you
