

Animals

The Ghost of a Saber Tooth Tiger

Everywhere you go you're in a microscope
Living in the fishbowl and your mind's under control
Say a prayer for the internet billionaire
The solar flare will burn the hair of man and polar bear
Animals have escaped the zoo
Coming down 5th Avenue
Now there's nothing left to do
Stop running away
Stop running away
Do you believe what you hear in the TVs?
Messages from Jesus in the grease upon the grilled cheese
Do you agree with the man on the TV?
Evidence that aliens brought Elvis to the Pleiades
Animals have escaped the zoo
Coming down 5th Avenue
Now there's nothing left to do
Stop running away
Stop running away
Lost in the Milky Way, the very first light wave
It's boring holes in space like a glow worm in the grave
Animals have escaped the zoo
Coming down 5th Avenue
Now there's nothing left to do
Stop running away
Stop running away
Animals have escaped the zoo
Coming down 5th Avenue
Now there's nothing left to do
Stop running away(x8)
