

YAVA!

BABYMETAL

Raarararara rarara.

Any of them are alike.

Everybody says so,

but they are in some way a little different, aren't they?

A little different, I wonder so after all.[Different. Different.] That's not acceptable.

[Different. Different.] You say so, but...

[Different. Different.] I don't know.

Eh? They are in some way a little different?[Oh, no.] I can't stop caring about it. What should I do?

I can't stop caring about it. What should I do?

Which side is that on? Which side is this on?

Paarira paarira fuu!

[Oh, no.] I can't stop caring about it. What should I do?

I can't stop caring about it. What should I do?

Which side is that on? Which side is this on?

Paarira paarira paarirarira![Pippo pappo pippo pappo pii. Pippo pappo pippo pappo pii.

Pippo pappo pippo pappo pii. Pippo pappo pippo pappo pii.]

Any of them are alike.

Everybody says so,

but they are in some way a little different, aren't they?

A little different, I think so after all.[Different. Different.] That's not acceptable.

[Different. Different.] You say so, but...

[Different. Different.] They are different.

[Different. Different.] It is the case that they are different.They are in some way a little different after all.

[Oh, no.] I can't stop caring about it. What should I do?

I can't stop caring about it. What should I do?

Which side is that on? Which side is this on?

Paarira paarira fuu!

[Oh, no.] I can't stop caring about it. What should I do?

I can't stop caring about it. What should I do?

Which side is that on? Which side is this on?

Paarira paarira paarirarira!They are different.

Something is different. Something different.

Which is different? Which is different?

That is different and this is different, too.

They are pretty different. They are pretty different.

Something is different. Something different.

Which is different? Which is different?

That is different and this is different, too.

Oh. They are all all different.[Oh, no.] I can't stop caring about it. What should I do?

I can't stop caring about it. What should I do?
Which side is that on? Which side is this on?
Paarira paarira fuu!
[Oh, no.] You say "don't care", but I am free to care, ain't I?
You say "don't care", but I am free to care, ain't I?
Which side is that on? Which side is this on?
Paarira paarira fuu! [Even so,] They are different. They are different.
[Even so,] They are different. They are different.
[Even so,] They are different. They are too different, so I am at a loss.
Paarira paarira paarirarira!
[Pippo pappo pippo pappo pii. Pippo pappo pippo pappo pii.
Pippo pappo pippo pappo pii. Pippo pappo pippo pappo pii.]
