Let's Do Something

Vince Gill

Nothin' to do in this lonely town
Your daddy warned me, "Son, don't come around"
Says I ain't good enough for you
He don't know what I'm goin' through
Let's do something
Sneak out your bedroom window, girl
And we'll be gone
Let's do something
Oh, baby, let's do something
Even if it's wrong
Go see the preacher 'cross the county line
For 25 dollars he could make you mine
My heart's on fire, can't you feel it burn
I'm past the point of no return
Let's do something
Sneak out your bedroom window, girl
And we'll be gone
Let's do something
Oh, baby, let's do something

Even if it's wrong
I'll make your daddy understand
Oh, Lord, I know I can make him understand
I'll face your daddy man to man
No guts, no glory, girl, I'll take that chance
Oh, baby, let's do something
Sneak out your bedroom window, girl
And we'll be gone
Let's do something
Oh, baby, let's do something
Even if it's wrong
Let's do something
Sneak out your bedroom window, girl
And we'll be gone
Let's do something
Oh, baby, let's do something
Even if it's wrong
