Heaven

Eurythmics

That's right, that's right
That's right, that's right
Heaven, I love to
Heaven, just what you need
Heaven, I love to, Heaven
That's right, that's right
That's right, that's right
Heaven, I love to
Heaven, just what you need
Heaven, I love to, Heaven
That's right, that's right
That's right, I love to

Takes a little time, takes a little time
Takes a little time, takes a little time
Takes a little time, takes a little time
Takes a little time, takes a little time
Takes a little time, takes a little time
Takes a little time, takes a little time
Takes a little time, takes a little time
Takes a little time, takes a little time
Takes a little time, takes a little time
Takes a little time
Takes a little time
