

# This World

## Ugly Heroes

Red Pill:

I leave rappers more afraid than two racists  
surrounded by 22 Ving Rhames' each with .22's and two big razors

Trapped inside of two big cages  
with a moat around the outside with sharks that shoot lasers  
I feel a war coming, so pass the war drum  
and bang on that bitch till you feel your fucking core buzzing  
whether it's your cousin, your brother or your husband  
If they're not screaming "Fuck the police", then you're suffering  
For every fake cop who midnights on his KKK watch

Trust that I pray that they drop  
I'm more of a lover than a fighter  
But if it's fire that they want then I'm happy to spare a lighter  
Confederate Flag wavers in Carolina  
I'd be happy to take you to your intelligent designer  
I don't care if it's Darren Wilson or Paris Hilton  
I'm tearing through all of 'em, not even sparing children

Verbal Kent:

This fucking interview is  
Over... pshh, You got somethin' to ask me?  
I'll be watchin' Wrestle Mania with Brendan Daseey at the  
Avery salvage yard: you wanna rumble? Get your parents.  
- and tell em they better be ware of somethin worse than Jared  
I'll rip the hair off Donald Trumps scalp, for runnin his fat mouth truthfully?

I'd rather elect Alf.  
I go deeper than scuba divers, to bring truth to you  
guys its... more than just Isis... and uber drivers  
devices to give us divorces and force us to believe in  
forces: cry in' over Han Solo corpses. The  
rebirth: your means of egress is slim, slimmer than your  
neck: choke you out with an ' I can't breath tshirt for

Freddie Gray: Say all lives matter  
say it

just once and all bodies and all minds splatter, I'll push over a  
push over, your hopeless.nothin' el help, stand

up for yourself? N stand

Up for your self...
