Five to One Strip Me

Culture

Can't take the gambling five to one strip me,seh me can't take the gambling five to one strip me (it hurts) me can't take the gambling five to one strip me.

If them set a dollar from I they want five
When me take a stack the winning card fi always hide
Fi what?

Can't take the gambling five to one strip me,can't take the gambling five to one strip me.

I look up on the ocean
There's an anchored ship
When I check in Montego bay
You sight the head of it
When you check back here in Kingston
You come back and see the head
No one knows where the head is now
go tell the community a see nuh ship a load

Can't take the gambling five to one strip me,can't take the gambling five to one strip me, can't take the gambling five to one strip me
The card of this undertaker
Looks likely to win
When we check it on that shuffling they shuffle
The winning card gone Lord!

Can't take the gambling five to one strip me,can't take the gambling five to one strip me

If you do best for them Lord
Looks like you no do a thing
And if you sit look at them
Like they are at paradise
Them tell you if you want go fire you bro...Ooh

Cant take the gambling five to one strip me, can't take the gambling five to one strip me,can't take the gambling five to one strip me,can't take the gambling five to one strip me..
