Strong As Steel

Five Star

We've been so close to each other
Can't think of a moment that you weren't there
We've been through so much together
Can't think of a feeling that we haven't sharedOoh, how many lovers
Ever find the kind of love that we got
Ooh, ain't many others
Because you know what we got is a rare thing
Oh, it's everlastingThis love is as strong as steel
Can't break it up or break it down, it's always gonna be around
This love is a love that's real
It's as deep as any ocean goes, it's gonna last, don't you know
This love's strong as steelWe've been right here for each other
Even through the times when times were hard for us
When it rained we came through shining
Always knew we'd make it, all it takes is trustOoh, and now there's nothing, no
That could ever come between you and me
Ooh, our love is one thing
That just keeps on getting better
The more that we're togetherThis love is as strong as steel
Can't break it up or break it down, it's always gonna be around
This love is a love that's real
It's as deep as any ocean goes, it's gonna last, don't you know
This love's strong as steelNot rain or any weather
Is gonna sweep this love away
We're gonna stand together heart to heart
And nothing's gonna tear this love apartIt's as strong as steel now baby
Strong as steel now darlin', this love
It's as strong as steel now baby
Strong as steel now darlin'This love is as strong as steel
Can't break it up or break it down, it's always gonna be around
This love is a love that's real
It's as deep as any ocean goes, it's gonna last, don't you know
This love's strong as steelThis love is as strong as steel
It's as strong as steel now baby, strong as steel now darlin'
This love is a love that's real
As deep as any ocean goes, it's gonna last, it's gonna lastThis love is as strong as steel
It's as strong as steel now baby, strong as steel now darlin'
