

Woman To Woman

[Keyshia Cole](#)

(Keyshia Talking)

Yea wassup? So, I know you know this dude so I need you to talk to me and jus tell me what's going on you know what I'm sayin'? Woman to Woman I think it's only fair, I already know so jus let me know u know what I'm sayin' what you know.

(Keyshia)

It's goin' around
Ya'll been doin' ya thang
And no matter what I say
It's not gonna jus change things
See I wanna know
No one wants to be cheated on
Can you jus keep it real with me
Woman to Woman

(Chorus)

You got me (got me like the Feds)
Checking all the evidence
Checking out where you been
What you been doing with her
(So can we keep it real) I wanna know everything
So girl tell me everything
I am really trippin', but I gotta know
What's goin' on

(Ashanti)

Girl I've been in this here long enough
See I been doin' this here long enough
So Ima tell ya where I stand
I gave my heart to this man, yeah aye
He never mentioned he was in a situation
He told me I was his one and only, yeah yeah
See we gon' have to sit down
And figure this thing out aye

(Keyshia)

Yea you gon' have to tell me
I don't know why he wanna play me
And leave me in the blind
I though we knew
What we wanted to do

(Chorus)

He got me (got me like the Feds)

Checking all the evidence (Got me yea yea)
Checking out where you been (Come On)
What ya been doin' with her
(So can we keep it real) I wanna know everything
So girl tell me everything
I am really trippin', but I gotta know

What's goin' on
(Keyshia)
We had a home together
He said it would last forever
And no matter what
No one would ever break us up (NO ohohoh)
(Ashanti)

He got his clothe over here
We been building this life for years
Been through ups and downs
Even stayed at his mama's house
Even talked about having kids
(Chorus)

Got me like the Feds
Checking all the evidence (He got me yea yea)
Checking out where you been (Come on)
What ya been doin' with her
(So can we keep it real) I wanna know everything
So girl tell me everything (Girl tell me everything yea yea)
I am really trippin'(no no no), but I gotta know
(Bridge)

See woman to woman
I know he ain't right
Looked me in the eyes and lied a thousand times
I can't believe
He did this to me
I gave him my heart so what's it's gonna be

(Keyshia)
So whatcha
So whatcha
So whatcha gonna do
(Ashanti)
So whatcha
So whatcha
So whatcha gonna do

(Background)
So whatcha
So whatcha

So whatcha gonna do
