Hallelujah

Appleton

Maybe it's true, they love everything that you do
You're the talk of the town
What do they want from you?
You're thereHallelujah, things shout to ya, Hallelujah
Come and get me, that's what they see, Hallelujah
I'm waiting for you to
Show me how it's done, tell me what to doJust a little bit of confidence
Just a little bit of self assurance
Take it from the beginningStarting with the way I feel inside
It's enough to make me wanna run and hide
It's the ugly feelingIs it because the way you are?
Did you ever think you'd come this far?
As far as I'd like toJust a little helping hand from you
I'm sure you'd know exactly what to do
I'm ready and waiting
Show me how it's done, tell me what to doHallelujah, things shout to ya, Hallelujah
Please show me
It's a game see, come and play me, Hallelujah
No wonder they love youShed some light on, what they fight on? Hallelujah
Please show me
Come and get me, I want them to see, Hallelujah
It's what I'm dreamingMaybe it's true
They love everything that you doHallelujah, things shout to ya, Hallelujah
Please show me
It's a game, see, come and play me, Hallelujah
No wonder they love youShed some light on, what they fight on? Hallelujah
Please show me
Come and get me, I want them to see, Hallelujah
It's what I'm dreaming
