

Loveblood (EP Version)

Sundara Karma

[Verse 1]

Wasted with my arms out, whisper and a loud shout
Lost in the way she says my name

I'm such a creep

Fortune brought me lovers, shadow taro colours

Fated to kill the sweetest things

One by one[Chorus]

Hey, what's that from above?

It's a love for blood

Hey, what's that from above?

It's a love for blood?[Verse 2]

Hiding in the silence, one-way form of violence

Taste of the thunder from her thighs

Makes me shake

Calmly kicking outwards

Since she misunderstood walking the along the razor's edge

And she sweetly moans[Pre-Chorus]

Hey, what's there from above?

It's a love for blood[Wordless Bridge][Chorus]

Hey, what's that from above?

It's a love for blood

Hey, what's that from above?

It's a love for blood?

Hey, what's that from above?

It's a love for blood

Hey, what's that from above?

It's a love for blood?[Outro]

One last kiss, away she goes

Obsessed with loveblood and yet no one knows
