

# Sing for the Sun

## Philadelphia Grand Jury

I won't sing anymore  
For love, or parties, or wine  
It's come quicker than straw, on fire  
I'll sing for the sun  
Beating down on a far away place  
And I can only imagine  
I'm safe

She takes my hand while I am sleeping  
She gives me everything I need  
She takes me over the horizon  
And lets me be

(German)

She takes my hand while I am working  
She gives me everything I need  
She loves me even when I see him  
And lets me be

She takes my hand while I am sleeping  
She gives me everything I need  
She lays me down and softly beckons me  
To dream

I'll sing for the sun  
Beating down on a far away place  
And I can only imagine  
I'm safe
