I Want You

Fefe Dobson

I want you
When the sun comes up, I wanna make you mine, I wanna make it count
I want you
I wanna take you home, I wanna make it known, I wanna take you on
I want you
Let me say it again, I wanna say it again, but let me say it again
I want you
I want ya more than a friend
I'm gonna gonna make you mine!

And the bells will ring and the children sing 'cause you're gonna be all mine
And the people dance as they clap they're hands
Just see what we could be (I want ya)
Just see what we could be (I want ya)
Don't cha see what we could be (I want ya)
Yeah to see what we could be

I want you
I want cha everywhere, I'm gonna make it clear, I want cha standin here
I want you
I wanna be the one,
I wanna show you off, so I can have some fun
I want you
Let me say it again,
I wanna say it again, let me say it again
I want you
I want cha more than a friend
I'm gonna, gonna make you mine!

And the bells will ring and the children sing 'cause you're gonna be all mine
And the people dance as they clap they're hands
Just see what we could be (I want you)
Just see what we could be (I want you)
Don't cha see what we could be (I want you)
Yeah to see what we could be

All the girls
All the boys
Clap clap clap, clap clap ya hands
Clap clap clap, clap clap ya hands

Clap clap clap, clap clap ya hands
Clap clap clap, clap clap ya hands

And the bells will ring and the children sing 'cause your gonna be all mine
And the people dance as they clap they're hands
Just see what we could be (I want you)
Just see what we could be (I want you)
Don't cha see what we could be (I want you)
Yeah to see what we could be
