

# Wilt

## Kalipo

Hair raising shake you're much too late  
You should've jumped a couple of cars before  
Now if I may I'll walk away  
I'm selling Silly Putty door to door  
And up on the shelf it seems to help  
If I can keep a little bit of disease  
As it's feedin' on me  
You see it's bringin' me to my knees  
As we all wilt  
Watching you wilt  
Come right away and help me bathe away

The filthy feeling, frigid and cold  
Biting my nails to the fairy tales  
About the magic monkey's total control  
See I got Indian Ken and his fleabag friends  
With their buckets full of elephant ears  
As he's breathin' on me  
His breath is bringin' me to my knees  
As we all wilt  
Watching you wilt  
Pea green the feeling
