

Believe (CultureRock Remix)

Blood on the Dance Floor

Believe in me,
When you feel like you're losing all your hopes and dreams.
Believe in me,
When I am gone you gotta keep a smile on.
Believe in me,
Goodbye my friends; Just celebrate the times we spent.
Believe in me,
We all die; It's in awfully big adventure.
Believe in me, When I'm gone...We all fall down,
We'll pick you up.
We all fall down,
We'll pick you up. Believe in me,
Just keep your faith and believe in all that you make.
Believe in me,
My love is not a gamble; You can count on me.
Believe in me,
No lies just love; I will be pure just like the sun.
Believe in me,
When you are down I will lift you up from the ground.
Believe in me, When I'm gone...We all fall down,
We'll pick you up
We all fall down,
We'll pick you up (Don't be afraid of death, It will come at you at the speed of light. But if you're not afraid of
death, it will cast it's shadowy eyes upon you, and guide you into eternal infinity) Believe in me, When I'm
gone...We all fall down,
We'll pick you up
We all fall down,
We'll pick you up
I love you....
