

Better Days (From "Eat Pray Love")

Eddie Vedder

I feel part of the universe...
open up to meet me
my emotion so submerged...
broken down to kneeling what's listening?... voices they care... had to somehow greet myself... read myself
heard vibrations within my cells... in my cells Singin' laaa... my love is saved for the universe...
see me now I'm bursting
on one planet so many turns...
different world singin' laaa... fill my heart with discipline...
put there for the teaching
in my head see clouds of stairs...
help me as I'm reaching the future's paved... with better days I'm running... from something
I'm running towards the day... wide awake all whispered... once quiet
now rising to a scream... right in me I'm fallin'... free fallin'
world's calling me... up off my knees oh, I'm soaring... yeah, and darling
you'll be the one that I can need..... still be free our future's paved with better days.
