

# Salt

## [Trixie Whitley](#)

As the days go by  
I cannot deny  
You're my favourite stranger  
Meet me on the other side  
It hardly seems right  
I'm never satisfied  
It could be so nice  
To find a place to hideLet go  
You never let down in spite  
My love is showing another side  
This is bitter salt  
It wounds the??  
My lips broke up they split into the night  
It hardly seems right  
I'm never satisfied  
It could be so nice  
To find a place to hideLet go  
You never let down in spite  
My love is showing another side  
Let go  
You never let down despite  
My love is going to show another sideNever satisfied  
I'm never satisfied  
Never satisfied I'm never satisfied  
Let go  
You never let down in spite  
My love is showing another side  
Let goYou never let down despite  
My love is going to show another side
