Coast Of Carolina

Telekinesis

Woke up in another lifetime
It's a shame it's just not right now
Dreaming of the coast of Carolina
Dreaming all the ways that you will smileCome down, come quickly
Look at the lights in the big city
Sewers smoking what the hell
Is it toxic I can't tell
When they wake up twist and turn
Feel my insides bubble and burn
Constant conversations with my self
Goddamn this isn't fairTurn it up, turn it up
You know
Yeah you know
Yeah
I said turn it up, turn it up
You know
Yeah you know
YeahI can see you yes I can
I can feel you holding my hand
Left at first and down to third
I swear my heart will burst
Looking for a place to go
Keep on moving fast and slow
As the crowds follow my path
I know this is going to lastTurn it up, turn it up
You know
Yeah you know
Yeah
I said turn it up, turn it up
You know
Yeah you know
Yeah
