

Honey (B-side Version)

[Tori Amos](#)

A little dust never stopped me none
He liked my shoes, I kept them on
Sometimes I can hold my tongue
Sometimes not when you just
Skip-to-loo my darlin'
And you know what you're doin'
So don't even You're just too used to my honey now
You're just too used to my honey And I think I could leave your world
If she was the better girl
So when we died
I tried to bribe the undertaker
'Cause I'm not sure what you're doing
Or the reasons You're just too used to my honey now
You're just too used to my honey Don't bother coming down
Made a friend of the western sky
Oh, don't bother coming down
You always like your babies tight Turn one last time
Love to watch those cowboys ride
But cowboys know cowgirls ride
On the Indian side
And you know what you're doin'
So don't even You're just too used to my honey now
You're just too used to my honey
You're just too used to my honey now
You're just too used to my honey
