

# Waking Up The Ghost

## 10 Years

Waking up the Ghost  
No one knows  
The secrets that I keep  
No one knows  
What's in my head  
I can't control  
The other side of me  
I have lost my grip  
Breaking  
The pulse of a steady beat  
Pleading for sanity  
The voices calling out my name  
Now I'm afraid that I  
Am waking up the ghost  
Not digging up the memories  
That were dead to me (dead to me)  
Now, now I'm getting close  
Closer to the enemy  
That's inside of me (inside of me)  
Under the skin  
The soul of the guilty  
Under the surface  
Lonely lies  
Under the weight

The sin is  
Eating me alive  
No mercy  
No forgiveness  
Condemn to my own hell  
The voices calling out my name  
Now I'm afraid that I  
Am waking up the ghost  
Not digging up the memories  
That were dead to me (dead to me)  
Now, now I'm getting close  
Closer to the enemy that's inside of me (inside of me)  
Woah, Woah, Woah, Woah  
I am waking up the ghost

And digging up the memories  
That were dead to me (dead to me)  
I am waking up the ghost  
And digging up the memories  
That were dead to me (dead to me)  
Now, Now I'm getting close  
Closer to the enemy  
That's inside of me (inside of me)  
Woah, Woah, Woah, Woah
