Gone Away

Social Code

Today's another day
Not missing you
had to see it
From a different point of view
cause its over now
You're just a face in the crowd[Chorus]
Gone gone away
I've wasted so much time on you
Good bye it's time for something new
Gone gone away
There's nothing more that you can say
You said your last words yesterday
I'm goneI never thought I'd see this side of you
Colder than the dark side of the moon
I'm so happy now
You're just a face in the crowd[Chorus]
Gone gone away
I've wasted so much time on you
Good bye it's time for something new
Gone gone away
There's nothing more that you can say
You said your last words yesterday
I'm goneSome things are better left unsaid
but I can't hold it inaway I'm gone... away your gone... away I'm gone
FUCK YOU
You, you ruined everything[Chorus]
Gone gone away
I've wasted so much time on you
Good bye
Gone gone away
There's nothing more that you can say
You said your last words yesterdayGone gone away
I've wasted so much time on you
Good bye it's time for something new
