She Knows Why

Claude King

I have a story I'd like to tell broken heart's knowin' only too well
And she knows why I feel the way I do
She gave me love and took it away blue sky has turned to a solid grey
And she knows why I feel the way I doWell I know I'm a walkin' down the lovesick trails been walked down by many before
But when she sees my side of tracks she'll know I've learned the score
I pick my tears put 'em on the shelf keep my heartaches to myself
And she knows why I feel the way I do
[guitar]
When she finds somebody new he'll find out what I went through
And she knows why I feel the way I do
She gave me love and took it away blue skies had turned to a solid grey
And she knows why I feel the way I do
Well I know I'm a walkin' down...
She knows why I feel the way I do
