

The Club

Bombs and Bottles

(Verse 1)

I can feel it coming on/
Strangers keep on passing things I can't refuse/
Acting like I give a fuck/
The scene repeats a thousand nights it's nothing new/

Take me, where you want/
I will, follow you/
Light me, like a spark/
Kiss me, like it's new/

(Bridge 1)

I see you came with your bags out/
Spill them over my table/
Girl I know what you came for/
When your with me you don't say no/

(Hook)

Girl I want you to feel this/
All of it, Everything/
Girl I want you to see this/
All the lights, on you're face/
Girl I want you to hear this/
All of it, Everything/
Girl I want you to try this/
Slowly, Slip Away/

I can't hear you I'm faded, faded, faded/
Rolling baby I'm faded, faded, faded/
I can't hear you I'm faded, faded, faded/
Rolling baby I'm faded, faded, faded/

(Verse 2)

Feels like we've all had too much/
I don't remember when you climbed on top of me/
I don't want this ride to stop/
Someone wake me up I must be in a dream/

Take me, where you want/
I will, follow you/

Light me, like a spark/
Kiss me, like it's new/

(Bridge 2)

All these girls are gon pass out/
There's plenty more where they came from/
Bring them up to my table/
Give them all what they came for/

(Hook)

Girl I want you to feel this/
All of it, Everything/
Girl I want you to see this/
All the lights, on you're face/
Girl I want you to hear this/
All of it, Everything/
Girl I want you to try this/
Slowly, Slip Away/

I can't hear you I'm faded, faded, faded/
Rolling baby I'm faded, faded, faded/
I can't hear you I'm faded, faded, faded/
Rolling baby I'm faded, faded, faded/
