

Halls of Heaven (feat. Chris Quilala)

Jesus Culture

Like thunder speaking from the clouds
Your word is always going out
Your whisper I keep following the sound
Into Your presence I get caught up
Shadows left behind
I get caught up
Drawn into Your light
I get caught up
Where Spirit is alive
Into Your presence Like a child we come running
Through the halls of Heaven
To the Holy of Holies
Doors are flung wide open
Joy is overflowing
In the halls of Heaven
We come running
We come running
Through the halls of Heaven
We come running
We come running
Through the halls of Heaven Unhindered, all fear is letting go
Abandoned, a beauty to behold
I get caught up
I get caught up
I get caught up Like a child we come running
Through the halls of Heaven
To the Holy of Holies
Doors are flung wide open
Joy is overflowing
In the halls of Heaven
We come running
We come running
Through the halls of Heaven
We come running
We come running
Through the halls of Heaven Face to face
With the glory of God
And heart to heart
With the One that we love

Face to face
With the glory of God
And heart to heart
With the One that we love
Face to face
With the glory of God
And heart to heart
With the One that we loveLike a child we come running
Through the halls of Heaven
To the Holy of Holies
Doors are flung wide open
Joy is overflowing
In the halls of HeavenWe come running
We come running
Through the halls of Heaven
We come running
We come running
Through the halls of Heaven
We come running
We come running
Through the halls of Heaven
We come running
Can't stop running
Through the halls of Heaven
