

# State of Emergency

## Winger

Rough boy  
Too tough to fall in love  
I never break down  
Always seem to hurt someone I turn and try to run too late  
She's breakin' me down  
It's over when I see her face  
You know I can't find my way out Emergency  
First time love's got a hold on me  
Emergency  
A state of emergency Shot down  
In the web of a modern girl  
You take your chances  
When the fear inside is real I turn and try to run too late  
She's breakin' me down  
It's over when I see her face  
You know I can't find my way out Emergency  
First time love's got a hold on me  
Emergency  
A state of emergency, oh Emergency  
First time love's got a hold on me  
Emergency  
In to you helplessly Emergencies, oh  
Emergency  
Emergencies  
Emergency  
Emergencies  
Emergency  
Emergencies  
Emergency  
Emergency, yeah  
Remember my love
