

Against All Interest

Criteria

why have i been sent apart
i just want a chance to begin
speak up, speak up my friend
or are we just acquaintances?
it is a business sentiment
or is cold more accurate?
fifteen years in developance
but do i deserve more than this? nail yourself to corporate ties,
what's independence if it makes you cold?
was this the peak in the conversation?
don't sweat out the end result of it
wake up, wake up my friend
this is not coincidence
it is deliberately happening nothing is against all interest
don't say i drown, say i should come
(against all interest)
don't say i drown, say i should come
(against all interest) guitars! you are mistaken
you said i would run
i'd never run
wake up, wake up my friend
this is not coincidence
it is deliberately happening nothing is against all interest
don't say i drown, say i should come
(against all interest)
don't say i drown, say i should come
(against all interest) guitars!
