Breathe

Xentrix

[Come on]I wasn't there I guess [Come on]
I wrote down the wrong address
I wish I was I confess
I was in the way I guess[Come on]I was standing outside too long [Come on]
Coming on way too strong
You needed an alibi
But I was inside and highSo breathe for me now
Because I can't find the air
And every time I look around
It's like I wasn't there
You know I can't breathe
And I suppose it's a fool who tries to share
It's never what you want to be somehow
[Come on]This was the pill the place
And I wanted smiles your face I
In trying to keep good time
I wasn't what I triedSo breathe for me now
Because I can't find the air
And every time I look around
It's like I wasn't there
You know I can't breathe
And I suppose it's a fool who tries to share
It's never what you want to be somehow
So breathe for me now
So breathe for me now
Because I can't find the air
And every time I look around
It's like I wasn't there
You know I can't breathe
And I suppose it's a fool who tries to share
It's never what you want to be somehow
You plan to stand right next to me for now
It's never what you want to be somehow
So breathe for me now
