

Longshot

Nevertheless

What if the fire burns out?
What if were left with out
anyone to call our own?

You got it figured out
if ever your in doubt
You never have to be alone.

People they come and
People they go
I could be wrong but,
There's one thing I know!

CHORUS:

It's a long shot baby,
some day both of us will die,
so I was thinking maybe,
I could be your semi perfect guy
should have known me baby,
But I was hoping we could try
for a long shot you and I.

What if we take a chance?
What if you break your prance?
and let me sweep you off your feet?

You said you hate romance,
but I'm a persistent man!
And I want you here with me!

People they come and,
People they go,
I could be wrong but,
there's one thing I kno ho!

(CHORUS)

Bridge:

I've been praying all me life for love that's true,
But I never thought I'd get a girl like you,

oh, can't you see,
Heaven sent you to me,

(CHORUS) X2
