

Dark Side Of Night

Foxboro Hot Tubs

Bleeding me
Though my heart is dry
The knife is a symbol
The dark side of night

Killer's on the run
With a halo of lies
Raising the hell within us
As the angels fly

[Chorus]
There's a rain tonight
Falling from the sky
There's a liar's moon tonight,
The dark side of night

The secret chasm
Hole in my heart
Fire's raging on us
Burning like a scar

Made of flesh and blood
My soul's made of stone
My flame is burning out now
Darkness nightmares alone

[Chorus]
