

# Summer Rain

Chris Medina

On the rooftop thinkin' it's about to pour  
People run for shelter, tryin' to get out that storm  
    But I got you with me, the sun behind me  
        So what are we leavin' for?  
        Let's stay, let's get carried away  
Your eyes are beggin' me to touch you there  
    Could be a thousand people watchin'  
        But we don't care  
        But look at you tonight  
        So beautiful under these neon lights, yeah  
Who needs lovers lane? Right up on this rooftop  
    Let's make love in the summer rain  
    In the summer rain, in the summer rain  
    Nothin' better than givin' this all to you  
    And the weather's only adding to the mood  
    See the wind's blowin', fire's growin'  
        Both of us soakin' wet  
    But let's stay, yeah, let's get carried away  
Your eyes are beggin' me to touch you there  
    Could be a thousand people watchin'  
  
        But we don't care  
        But look at you tonight  
        So beautiful under these neon lights, yeah  
Who needs lovers lane? Right up on this rooftop  
    Let's make love in the summer rain  
        In the summer rain  
There's no place that I'd rather make love to you  
    Right here on this roof, yeah  
        Look at you tonight  
        So beautiful under these neon lights, yeah  
Who needs lovers lane? Right up on this rooftop  
    Let's make love in the summer rain  
        Look at you tonight  
        So beautiful under these neon lights, yeah  
Who needs lovers lane? Right up on this rooftop  
    Let's make love in the summer rain  
    In the summer rain, in the summer rain  
    In the summer rain, in the summer rain
