

Someday

The Summer Set

Even if I were king for a day
I'd leave this place behind
Could have everything that money can buy
But not be satisfied
Yeah, there must be more
That I'm looking for Cause there's gotta be something out there
If I fly high enough, I'll find it somewhere
So I'll hold my breath 'til I float away
Maybe I'll come down someday Even if I were somebody else
I'd chase the same song
Could be near, far, or beyond the stars
I'll find where I belong
If I don't let go
I may never know Cause there's gotta be something out there
If I fly high enough, I'll find it somewhere
So I'll hold my breath 'til I float away
Maybe I'll come down someday Yeah, there's gotta be something out there
If I fly high enough, I'll find it somewhere
So I'll hold my breath 'til I float away
Maybe I'll come down someday I may never find the answer
I just gotta be on my own
This may not last forever
I know I can always come home Yeah, there's gotta be something out there
If I fly high enough, I'll find it somewhere
So I'll hold my breath 'til I float away
Maybe I'll come down someday Yeah, there's gotta be something out there
If I fly high enough, I'll find it somewhere
So I'll hold my breath 'til I float away
Maybe I'll come down someday Maybe I'll come down someday
Maybe I'll come down someday
