

# Whoaa

## Mint Condition

I woke up kinda feelin' bright  
My stomach filled with butterflies  
My dream was all 'bout a love affair  
It was beautiful 'cause you were the one right there I look up just to check the time  
'Cause you bounce from work after 5  
I know your J-O-Be hard on you  
So I wanna scoop you up and tell you what I wanna do Take you on a ride, like a rollercoaster  
Make you wanna say whoaa  
Have you feelin' right, gettin' kinda vocal  
Make you wanna say whoaa All day, I was fantasizing  
Can't say much, 'cause some of it's classified  
Till tonite, when we both will share  
In the moment when you tell me just to hold it right there When you talk, you're deeper than an ocean  
A woman, with complex emotions  
Just love to peel off all your layers  
You got so many delicious flavors Satisfactions, waitin' for ya'  
You'll relax like, you're supposed ta'  
When I finally put my hands to you  
I blow your mind with some thangs you never knew Hope you're not working real late  
'Cause, all this talk got me so anxious  
Can't wait to play in your amusement park  
We're gonna sway and whoaa into the dark Take you on a ride, like a rollercoaster  
Make you wanna say whoaa  
Have you feelin' right, gettin' kinda vocal  
Make you wanna say whoaa
