

Farewell To The Fairground (Yuksek Remix)

White Lies

The light's still in our eyes
We're leaving this whole fairground behind
It's a dream that's going coldThe circus never dies
The act forever haunts these skies
I know we cannot stayFarewell to the fairground
These rides aren't working anymore
Goodbye to this dead town
Until the ice begins to thawThis place used to gleam
I see it in my hopeful dreams
Now I have to get awayWe move towards the stars
And all that we touch becomes ours
Let's keep warm till it's dayFarewell to the fairground
These rides aren't working anymore
Goodbye to this dead town
Until the ice begins to thawWe'll head south, just hold my hand now
I feel like I'm casting off my clothes
And I'm running through the snow towards the sunset
And I'm always with youKeep on running
Keep, keep on running
There's no place like home
There's no place like homeKeep on running
Keep, keep on running
There's no place like home
There's no place like homeKeep on running
Keep, keep on running
There's no place like home
There's no place like homeKeep on running
Keep, keep on running
There's no place like home
There's no place like homeKeep on running
Keep, keep on running
There's no place like home
There's no place like homeKeep on running
Keep, keep on running
There's no place like home
There's no place like homeKeep on running
Keep, keep on running
There's no place like home
There's no place like homeFarewell to the fairground
These rides aren't working anymore
Goodbye to this dead town
Until the ice begins to thawWe'll head south, just hold my hand now

I feel like I'm casting off my clothes
And I'm running through the snow towards the sunset
And I'm always with you
