Destroy

Hundred Reasons

If your lifetime
Was compressed into an hour
What would you do if you knew
The template was wrong?
Correct itContemplate spreading disruption
And hide signs of probable cause
Will you destroy, today
To outshine yesterday?
Will you now?Believe me I have noticed
Your irrational behavior
Could it be that you
Had something to hide all along?
Correct itI am for forgiveness
I have been the first to drown
But you are more than I will suffer
So I will be the first to surface
