"In a Moment Just Like This"

~ Brant Rochesters

[Verse 1]

The doctor closed the door and said
"I have some news for you
It's not as good as we had hoped
But we'll do all we can do

I know this news may cause your heart
To fill with fear and dread
But we'll do our best in every way
And see what lies ahead"

Then he looked at me with puzzled eyes
Wondering when I'd start to cry
He asked if I had understood

[Verse 2]

As I gazed up toward the sky
I said to him, "Sir, rest assured
There's not one thing I have missed
You see, I've practiced faith all my life
For a moment just like this"

[Chorus]

When the mountains up ahead look rough and tall
And the odds of climbing don't look good at all
Just take hold of the faith
That led you to this place

Remember God is always waiting
In a moment just like this

[Verse 3]

All of us face moments
With our stomachs tied in knots
Of anxious minds and worried hearts
Awful dreaded spots

Oh, but God's gone on before us
To those days we wanna cry

[Bridge]

And He stands in the moment's doorway
With His arms stretched open wide

[Chorus]

When the mountains up ahead look rough and tall
And the odds of climbing don't look good at all
Just take hold of the faith
That led you to this place
Remember God is always waiting
In a moment just like this

[Outro]

Remember
God is always waiting
In a moment just like this
