

# These Secret Kings I Know

## And So I Watch You From Afar

When you said let the others know,  
I wasn't sure, you want me to  
'Cause we all act like animals, like animals, like animals  
We pushed on black blocks in the dark  
The ground so loud, the sea can't hear  
And we weren't scared of anyone, of anyone, of anyone  
And all of these were private floors  
No cameras, fish - eyes open see  
That we could think of anything, of anything, of anything  
I hear you all around me shout  
And in this dark we're secret kings  
The bar called it Emmanuel, Emmanuel, Emannuel  
I love these secret kings I know, these kings I know, I  
know!  
When you said let the others know,  
I wasn't sure, you want me to  
'Cause we all act like animals, like animals, like animals  
We pushed on black blocks in the dark  
The ground so loud, the sea can't hear  
And we weren't scared of anyone, of anyone, of anyone  
And all of these were private floors  
No cameras, fish - eyes open see  
That we could think of anything, of anything, of anything  
I hear you all around me shout  
And in this dark we're secret kings!  
When you said let the others know,  
I wasn't sure, you want me to  
'Cause we all act like animals, like animals, like animals!
