Little Darlin'

Landon Pigg

Child my heart skips a beat for you
More than I need to
It feels like
You're the reason I never sleep
You're safe with me all through the lonely nightsAnd I I'll be a red apple tree
Give you all you need and glady more
When you feel that you don't need me just wait and see what I got in store for youLittle darlin, little darlin won't you let me
Let me love love like I
Like I want to I want to little darlin
Because you know that I'm dying to love youI'll be you're sunny day
So That when you play I'll shine down on you
Love I'll be you're moonlit light so you'll have a light when the sun is through wh whoaLittle darlin, little darlin won't you let me
Let me love, love you like I
Like I want to, like I want to, little darlin
Because you know that I'm dying to l-l-love youLittle darlin, little darlin won't you let me, let me love you like I woo
Like I want to, like I want to, little darlin beacause you
I'm dying to, dying to love youOh little darling I am dying just for you
