Live Without Her

Timothy Bloom

My baby told me
It was over
But I can't live without her
I can't live with out her
I gave so much of me
Why would I doubt her?
No I can't live without her
I can't live without herOh how..... did l let you slip away?
Through my fingers
And now..... your loving still lingers
Your loving still lingers
Your loving still lingersRisky Chances
I hate I had to let her go
But I love her
And I can't live without her
If it's a blessing
Cause she's been a miracle
Then I can't live without her
No can't live without herBut how..... did l let you slip away?
Through my fingers
And now..... your loving still lingers
Your loving still lingers
Your loving still lingers
