

Whore

Burning Image

You can't rely on just your own intuition
You've got to learn the ways of the world
It's just what you wanted; you've made your decision
It looks like you'll be leaving again
And like I, I, I said "quit fucking with my head,
Now go and fuck with somebody else." You know you can't survive just on ambition
You've got to earn your wage in this world
You wanted this, now go out and play
Cause, tonight you'll end up somebody's whore.
