

Just Like You

Stellar Kart

Just like me, to hide away when Im ashamed from you
Its just like me ti shift the blame and try to change the truth
I can always justify every little compromise
Even when I know its hurts your heart
Thou you see its just like me
Its just like you to always be faithful, when I keep me
Its just like you to all making love to me
You wont give up if I do
When Im a, a fake, a doubter, a failed
You remain so true
Its just like you
Its just like you
Its just like me
Still forget promises you make, worry what you fallowing
When we face to face, with the things that hut my heart
I believe its just like me
But its just like you
Its just like you to always be faithful, when I keep me
Its just like you to all making love to me
You wont give up if I do
When Im a, a fake, a doubter, a failed
You remain so true
Its just like you
You always reminding me
You are living this life with me
You are constantly changing me in everything I wanna be
Its just like you to always be faithful to live like its nothing to lose
Just like you to all making love to me
To never give up of whats true
No longer a triller, a faker, a doubter, a faller
Cuz Im living you make me a friend and a fighter
You save my life
You make all the things new
Its just like you
Its just like you
Its just like you
Its just like you
