

Better Off (feat. Josh Roa & BishÃ_p)

[filous](#)

A thousand hearts a thousand lies
sweet love and endless fights
low vibes and high rides
made me lose my mind
when I need you close at hand
you turn your back on me again
I'm longing for love again
and I need you to understand
After days and nights we spend
I'm not Better Off with you
I'm sick and tired I can't pretend
I am better off with you
(I'm not better off, better off with you)
A thousand hearts a thousand lies
sweet love and endless fights
low vibes and high rides
made me lose my mind
when I need you close at hand
you turn your back on me again
I'm longing for a solid man
baby baby stand
After days and nights we spend
I'm not Better Off with you
I'm sick and tired I can't pretend
I am better off with you
After days and nights we spend
I'm not Better Off with you
I'm sick and tired I can't pretend
I am better off with you
(I'm not better off, better off with you)
