You're All Talk

The Pandoras

Please don't go, please don't go away from me
Please don't go, please don't go away from me
I got my breakfast in bed
You're big stuff in Chicago so get in bed
This bedroom's only twelve by ten
You're all talk
(You're all talk)
I got your number for a real good time
Take the phone off the hook and watch you go wild
Say you go nuts and that's what I like
You're all talk,
(You're all talk)
Please don't go, please don't go away from me
Please don't go, please don't go away from me
Please don't go, please don't go away from me
Please don't go, please don't go away from me
Well
I got your number for a real good time
Take the phone off the hook and watch you go wild
Say you go nuts and that's what I like
You're all talk
(You're all talk, you're all talk)
Please don't go, please don't go away from me
Please don't go, please don't go away from me
Please don't go, please don't go away from me
Please don't go, please don't go away from me
You're all talk, you're all talk
You're all talk, you're all talk
You're all talk, you're all talk
You're all talk, you're all talk
You're all talk, you're all talk
You're all talk, you're all talk
You're all talk, you're all talk
